FROM THE PLANNER

Month by month

When to chit, plant and lift

JOB	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
Chit earlies	■	■	■									
Plant first earlies			■									
Plant second earlies				■								
Plant maincrops				■	■							
Lift first earlies						■	■					
Lift second earlies							■	■				
Lift maincrops								■	■	■		
Plant for Christmas (under cover)							■	■				

A green month means "some time in this month", not the whole month. Timings from the RHS potato guide.

- RHS planting times: first earlies around late March, second earlies early to mid-April, maincrops mid-April to early May. Plant a little later in colder regions.
- RHS harvest guide: first earlies June and July, second earlies July and August, maincrops late August to October.

YOUR PLOT IS DIFFERENT

Timings are guides. The RHS says to plant a little later in colder regions. Weather, soil and variety all make a difference, so watch your plants as well as the calendar.
